*SALVTEM IN VERO SALVTARI NOSTRO.*

ADMODVM Reuerende Domine, Nobilissime heros, Musarum Mæcenæ, Domine  
& patrone obseruandissime, summam eruditionem, & animorum institutionem  
( vt Ciceronis verbis utar ) longe præclaram esse in neruorum vocumque cantibus  
sitam, à Græcis semper fere creditum est. Hinc legimus Epaminondam Græciæ  
Principem fidibus præstantissime cecinisse. Proinde Themistocles, cum aliquot  
annis ante in epulis recusasset lyram, habitus est indoctior. Sed & Lycurgus, quam-  
uis durissimas Lacedæmoniis suis leges iniungeret, Musices tamen studium egre-  
gie videtur amplexatus; quando ipsam hanc natura parens impertiisse animaduertitur, quo transmitti  
laborum onus molestissimum procliuius posset. Remigem, vt Fabius inquit, cantus hortatur, & singu-  
lorum fatigatio, quamlibet se rudi modulatione solatur. Pythagoras, & qui deinceps studia consecrati

sunt eadem, mundum ipsum non citra musicas rationes concinnatum, coaptatumque argumentorum subtilitate colligere sunt visi. Quin & artium veluti præstantissima, diuinis se inseruit rebus, & quod testatum quoque Ptolomæus reliquit, numinibus placandis adhibetur. Plato etiam esse gentibus contributam putat Musicam, ad præclarius quoddã, præstantiusque opus. Nam cum sic concinnitatis inter frequentamenta varia præcipue artifex musica, non ideo à Diis data, vt ad delicias conuertamus, & aurium pruritum: sed vt, quod animæ consonantiam turbat, & harmoniam, huiusce voluptatis delinimento sedari, ac ad ordinem redigi valeat. Cæterum & grauissime Pindarus, *ὅτι δὲ μὴ πεθέληκε Ζεὺς, ἀτύζονται βοῶν Πιερίδων αἶοντα.* Quæcunque non amat Iupiter, vocem auersantur Pieridum. Quid, quod Socrates iam senex, institui lyra non erubescerebat. Thebis porro Pindari statua visitur nulla: visitur autem, inquit Athenæus, cantoris Cleonis: in cuius sinum, Thebas Alexandro diruente, cum fugiens quidam aurum immisisset, rediens anno 30. post, iam Thebis frequentibus, cum fide totum recuperauit. Præclara est comici Eupolis ad musices præconium pertinens sententia, qua negotium esse sancitur *βαδὺ καὶ καμπύλον*, id est, profundum, flexuosumque. Propterea in Hyacintho Anaxilas, Musica per Deos, inquit, perinde ac Lybia, semper quotannis nouam quampiam feram parit. Magnus equidem iuxta citharædum Theophilum, stabilisque Thesaurus musica est: mores enim instituit, componitque ac mollit irarum ardores, quod & Homerus Achilles abunde significat. Plura non addam, ne iuxta Dedicationis terminum transgredi, & tædium cuiquam parere videar: vnicum hoc addam, Deum ipsum, ipsosque cœlites Musicis numeris in primis delectari; homines multimodis curis, molestiis, aduersitatibus, corporis & animi ærumnis implicatos, mirifice recreari, neque Ecclesiam Catholicam, neque Rempub. ipsis carere posse manifestum est.

Cum itaque admodum Reuerende Nobilisque Domine, iam dudum animum meum ad illud studium appulissim, vt pro incremento Ecclesiæ, & salute Reipubl. optimorum Musicorum cum recentium tum veterum suauissimas harmonicas cantiones meis sumptibus, publicis typis, in lucem emitterem (pro vt iam nunc aliquæ publice iisdem emissæ extant,) operæ pretium me facturum existinaui, si excellentissimi Musici Andreæ Peuernage Cortracensis, nostro seculo in hac præstantissima arte facile primum inter omnes omnium nationum locum obtinentis, nouas & sacras cantiones pulchriori caractere, correctiori typo, & in hac noua forma den uo recudi curarem, & sic præclarum

# D E D I C A T O R I A.

Musices studium, quantum in me esset, promouerem, omnibusque magis commendatius redderem, communem morem & consuetudinem secutus, has Ecclesiasticas & sacras Cationes præfati Auctoris Ecclesiastico Patrono alicui, Musices Mecœnati optimo, qui perfecto amore prosequeretur rem Musicam, qui instrumentorum & vocalium Musicorum notitiam & vsum haberet, qui sacris Cationibus in Ecclesia & extra eam mirifice delectaretur, qui iisdem honorem Dei, incrementum Ecclesiæ, vtilitatem Reip. hominumque fauorem promoueret, dedicare volui, sicut debui. Dedico ergo R. & Nob. Dom. V. has sacras clarissimi Auctoris Andreæ Peuernage cationes, simulque obnixè precor eandem R. & Nob. Dom. V. vt eas hilari vultu suscipiat, eas contra liuores, & impudentes sanas, obtrectiones, & Zoilorum ronchos sua strenuitate fortiter defendat, meque in suum Patrocinium & fauorem recipiat. Ego hercle omnibus viribus enitar, vt progressu temporis eiusmodi, aut præstantioribus operibus inclytum nomen Wiltbergiacum, heroasque virtutes in toto mundo maiori studio & conatu celebrare possim. Deus æternus R. & Nob. Dom. V. diutissime incolumem conseruet, & ad altiora euehat, cui me plurimum commendo. Datum Francofurti, Anno 1602. 15. Augusti.

The musical score is written on five systems of staves. Each system contains six staves, representing six different vocal parts. The notation is a form of early printed musical notation, likely square notation, with various rhythmic values indicated by stems and flags. The lyrics are written below the staves, with some words split across lines. The score begins with a treble clef and a key signature of one flat (B-flat). The piece concludes with a double bar line and repeat dots.

(vt Ciceronis verbis vtar) longe præclaram esse in neruorum vocumque cantibus  
fitam, à Græcis semper fere creditum est. Hinc legimus Epaminondam Græciæ  
Principem fidibus præstantissime cecinisse. Proinde Themistocles, cum aliquot  
annis ante in epulis recusasset lyram, habitus est indoctior. Sed & Lycurgus, quam-

sunt eadem, mundum ipsum non citra musicas rationes concinnatum, coaptatumque argumentorum subtilitate colligere sunt visi. Quin & artium veluti præstantissima, diuinis se inseruit rebus, & quod testatum quoque Ptolomæus reliquit, numinibus placandis adhibetur. Plato etiam esse gentibus contritutam putat Musicam, ad præclarius quoddam, præstantiusque opus. Nam cum sic concinnitatis inter frequentamenta varia præcipue artifex musica, non ideo à Diis data, ut ad delicias conuertamus, & aurium pruritum: sed ut, quod anima consonantiam turbat, & harmoniam, huiusce voluptatis delinimento sedari, ac ad ordinem redigi valeat. Caterum & grauissime Pindarus, ὅτι δὲ μὴ περὶ ληκὲς ζῆντος, ἀπὸ ζῶντος βῶν Πιερίδων αἰῶντα. Quæcumque non amat Iupiter, vocem auersantur Pieridum. Quid, quod Socrates iam senex, institui lyra non erubescerebat. Thebis porro Pindari statua visitur nulla: visitur autem, inquit Athenæus, cantoris Cleoniss: in cuius sinum, Thebas Alexandro diruente, cum fugiens quidam aurum immisisset, rediens anno 30. post, iam Thebis frequentibus, cum fide totum recuperavit. Præclara est comici Eupolis ad musices præconium pertinens sententia, qua negotium esse sancitur βαδὺν καὶ καμπύλον, id est, profundum, flexuosumque. Propterea in Hyacintho Anaxilas, Musica per Deos, inquit, perinde ac Lybia, semper quotannis nouam quampiam feram parit. Magnus equidem iuxta citharædum Theophilum, stabilisque Thesaurus musica est: mores enim instituit, componitque ac mollit irarum ardores, quod & Homerus Achilles abunde significat. Plura non addam, ne iustæ Dedicationis terminum transgredi, & tædium cuiquam parere videar: vnicum hoc addam, Deum ipsum, ipsosque cœlites Musicis numeris in primis delectari; homines multimodis curis, molestiis, aduersitatibus, corporis & animi ærumnis implicatos, mirifice recreari, neque Ecclesiam Catholicam, neque Rempub. ipsis carere posse manifestum est.

Cum itaque admodum Reuerende Nobilisque Domine, iam dudum animum meum ad illud studium appulisset, ut pro incremento Ecclesiæ, & salute Reipubl. optimorum Musicorum cum recentium tum veterum suauissimas harmonicas cantiones meis sumptibus, publicis typis, in licem emitterem (pro ut iam nunc aliquæ publice iisdem emissæ extant,) operæ pretium me facturum existimaui, si excellentissimi Musici Andreae Peuernage Cortracensis, nostro seculo in hac præstantissima arte facile primum inter omnes omnium nationum locum obtinentis, nouas & facias cantiones pulchriori caractere, correctiori typo, & in hac noua forma denique recudi curarem, & sic præclarum

*SALVTEM IN VERO SALVTARI NOSTRO.*

ADMODVM Reuerende Domine, Nobilissime heros, Musarum Mecænas, Domine  
& patrone obseruandissime, summam eruditionem, & animorum institutionem  
(vt Ciceronis verbis vtar) longe præclaram esse in neruorum vocumque cantibus  
fitam, à Græcis semper fere creditum est. Hinc legimus Epaminondam Græciæ  
Principem fidibus præstantissime cecinisse. Proinde Themistocles, cum aliquot  
annis ante in epulis recusasset lyram, habitus est indoctior. Sed & Lycurgus, quam-  
uis durissimas Lacedæmonis suis leges iniungeret, Musices tamen studium egre-  
gie vi detur amplexatus; quando ipsam hanc natura parens impertuisse animaduertitur, quo transmitti  
laborum onus molestissimum procliuius posset. Remigem, vt Fabius inquit, cantus hortatur, & singu-  
lorum fatigatio, quamlibet se rudi modulatione solatur. Pythagoras, & qui deinceps studia consecrati

sunt eadem, mundum ipsum non citra muscas rationes concinnatum, coaptatumque argumentorum subtilitate colligere sunt visi. Quin & artium veluti præstantissima, diuinis se inseruit rebus, & quod testatum quoque Ptolomæus reliquit, numinibus placandis adhibetur. Plato etiam esse gentibus contributam putat Musicam, ad præclarius quoddã, præstantiusque opus. Nam cum sic concinnitatis inter frequentamenta varia præcipue artifex musica, non ideo à Diis data, vt ad delicias conuertamus, & aurium pruritu n: sed vt, quod animæ consonantiam turbat, & harmoniam, huiusce voluptatis delinimento sedari, ac ad ordinem redigi valeat. Cæterum & grauissime Pindarus, *ὅπου δὲ μὴ πεφάνηκε ζεύς, ἀτρεΐστοντα βόων Πιερίδων αἰδοντα.* Quæcunque non amat Iupiter, vocem auersantur Pieridum. Quid, quod Socrates iam senex, institui lyra non erubescerebat. Thebis porro Pindari statua visitur nulla: visitur autem, inquit Athenæus, cantoris Cleonis: in cuius sinum, Thebas Alexandro diruente, cum fugiens quidam aurum immisisset, rediens anno 30. post, iam Thebis frequentibus, cum fide totum recuperauit. Præclara est comici Eupolis ad musices præconium pertinens sententia, qua negotium esse sancitur *βαδὺ καὶ καμπύλον,* id est, profundum, flexuosumque. Propterea in Hyacintho Anaxilas, Musica per Deos, inquit, perinde ac Lybia, semper quotannis nouam quampiam feram parit. Magnus equidem iuxta citharædum Theophilum, stabilisque Thesaurus musica est: mores enim instituit, componitque ac mollit irarum ardores, quod & Homerus Achilles abunde significat. Plura non addam, ne iustæ Dedicationis terminum transgredi, & tœdium cuiquam parere videar: vnicum hoc addam, Deum ipsum, ipsosque cœlites Musicis numeris inprimis delectari; homines multimodis curis, molestiis, aduersitatibus, corporis & animi ærumnis implicatos, mirifice recreari, neque Ecclesiam Catholicam, neque Rempub. ipsis carere posse manifestum est.

Cum itaque admodum Reuerende Nobilisque Domine, iam dudum animum meum ad illud studium appulsiſſem, vt pro incremento Ecclesiæ, & salute Reipubl. optimorum Musicorum cum recentium tum veterum suauissimas harmonicas cantiones meis sumptibus, publicis typis, in lucem emitterem (pro vt iam nunc aliquæ publice iisdem emissæ extant,) operæ pretium me facturum existimaui, si excellentissimi Musici Andreæ Peuernage Cortracensis, nostro seculo in hac præstantissima arte facile primum inter omnes omnium nationum locum obtinentis, nouas & sacras cantiones pulchriori caractere, correctiori typo, & in hac noua forma denuo recudi curarem, & sic præclarum
